PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with experience engineering scalable web applications, modern CRMs, and cross-platform solutions. Proficient in Node.js, React, Next.js, Vue/Nuxt, and Flutter, with a proven track record of optimizing client-side performance, refining system architecture, and delivering high-impact features that support business growth.

WORK EXPERIENCE

Frontend Developer | Uniplatforms

Jan 2025 – Present | Tashkent, Uzbekistan

- Modernized user interface components for flagship enterprise products using modern JavaScript frameworks, improving overall WCAG accessibility standards and cross-browser performance consistency.
- Optimized client-side rendering pipeline and asset delivery, reducing initial page load times by ~25% and enhancing user retention across primary workflows.

Frontend Developer | ProgrammerUZ

Aug 2023 – Jan 2025 | Tashkent, Uzbekistan

- Refined client-side architecture for mission-critical web applications by integrating modular, re-usable component patterns and establishing automated test coverage.
- Streamlined code review processes and modularized state management pipelines, ensuring seamless long-term scalability and code maintainability for high-traffic clients.

Full Stack Developer | Hoca Inc

Jul 2023 – Jan 2024 | Seoul, South Korea (Remote)

- Engineered robust end-to-end web applications connecting modern Vue/React frontend architectures with Node.js backend microservices, elevating core user engagement.
- Architected real-time client interaction modules using WebSocket protocols and dynamic RESTful APIs to deliver seamless user experience across core workflows.
